

The end caps of each corridor piece include space for small 6mm x 3mm rare earth magnets to make your dungeon a cinch to assemble on the fly!

These magnets are very small and should be handled with care. Especially in homes with children and pets.

Pay careful attention to the polarity of the magnets, you will want them to be uniform for the wall sections to clip together. Check out the video tutorial on the product page for an easy way of inserting your magnets so they are the correct polarity and will work with every combination of pieces!
