

JADE KINGDOM ASSEMBLY INSTRUCTIONS

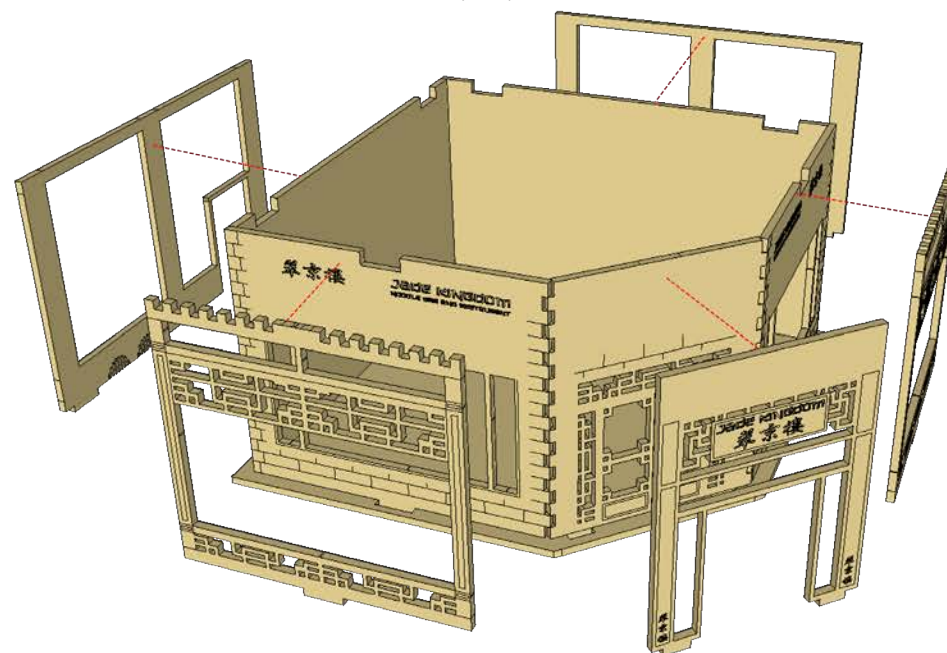

JADE KINGDOM ASSEMBLY INSTRUCTIONS

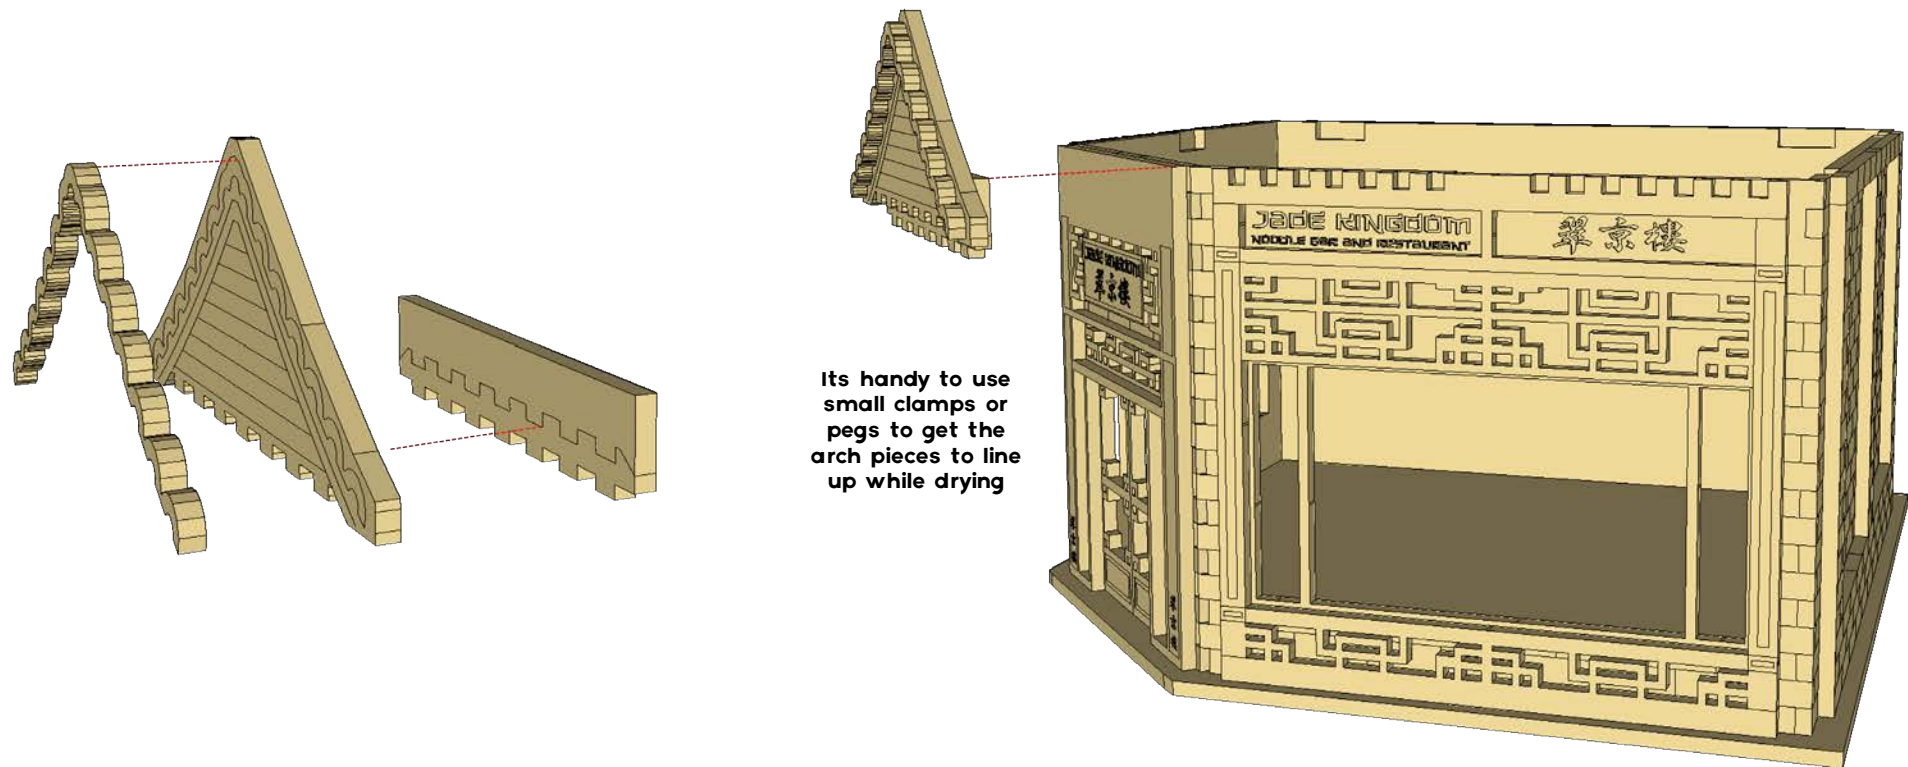

It can be slightly tricky to get this piece into place. Take your time and bring the piece in at an angle. It helps to use a large elastic band to hold it in place while drying

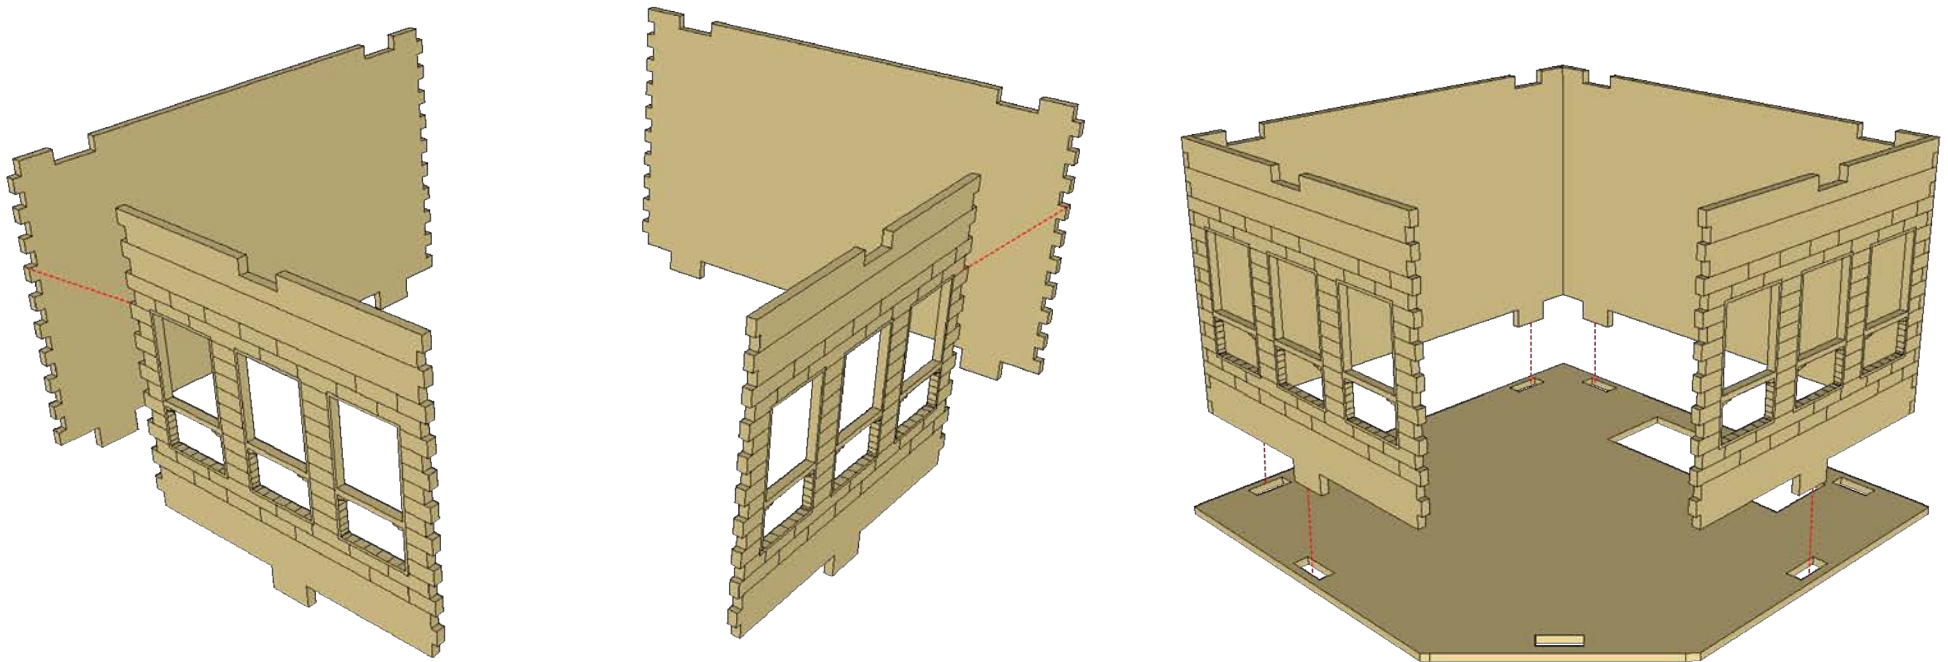

We've found it useful to Apply glue to the facade pieces, then slot them into the holes on the base piece. Make sure you have the correct facade piece for the correct side (as some sides have doors and corresponding facades). Small clamps or large elastic bands also help with securing the facade pieces while they dry

Glue the roof trim in the numbered order. The pegs extend through the roof piece to form lugs for locking into the second floor

Don't glue your levels in place, you want to be able to access the interior
